Course Description:	The Emergency Medical Technician (EMT) course prepares the EMT student to provide prehospital assessment and care for patients of all ages with a variety of medical conditions and traumatic injuries. Areas of study include an introduction to emergency medical services systems, roles and responsibilities of EMTs, anatomy and physiology, medical emergencies, trauma, special considerations for working in the prehospital setting, and providing patient transportation.

This course will be a combination of lecture with skill training, emphasis on the skills training. Students will be expected to wear comfortable clothing appropriate for the weather and indoor classroom activities. Shoes must be closed toe, duty style boots are preferred, but not required. Clinical training will include assisting in the Emergency Department at Forks Community Hospital and Ambulance ride alongs. Clinical training will be conducted outside of the regular class schedule, and may be done at all hours including weekends and evenings. Students are required to participate in patient care, both in the classroom setting as well with actual patients in the Pre-Hospital and Emergency Room settings.

Successful completion of this class will allow the student to take the National Registry of Emergency Medical Technicians test for EMT Credentialing. Course fee includes the cost of the initial test.
