

Forks Community Hospital

"Pioneers in Rural Health Care"

## Caregiver of the Month Jubilee Mattix NP

The Bogachiel Clinic is delighted to have Jubilee Mattix join their team of local providers. Jubilee specializes in family practice and has a passion for serving women and children. Jubilee attended Seattle University and is AANP certified.

After completing a degree in Community Health she traveled to Egypt to aid the refugees in Cairo. It was while working with refugees that Jubilee knew she wanted to serve patients' healthcare needs. She envied the doctors' ability to work one on one, creating trusting partnerships with patients. Upon her return to the United States she entered into the Nurse Practitioners program. Jubilee completed quarterly rotations in Rural Health Clinics and spent some time as a home health provider.

When asked what she loves about her job, she describes the unique experience that working with a family unit provides. She takes pleasure in serving families using a team approach; creating a partnership with parents in serving the distinctive and complex healthcare needs of their children. Jubilee eagerly anticipates developing an understanding of the individual healthcare desires of families in The West End while empowering patients to gain control of their medical care and overall health. In addition, she is looking forward to learning the essential values of the local Hispanic, Guatemalan, and Native American Cultures allowing her to provide quality healthcare to the entire community.

As a healthcare provider that enjoys hiking and working in a rural community, Forks was an attractive location for employment. Jubilee is enjoying the unparalleled beauty of the Olympic National Park and taking advantage of the easy access to hiking and beaches.

When Jubilee is not working or hiking; she enjoys cooking, playing the violin, and spending time with her 2 nephews and 3 nieces that are all between the ages of 3-6. Jubilee is looking forward to hearing our local high school band perform and will be cheering for our Spartans in the fall.

Please join us in welcoming Jubilee into our community. She is already partnering with patients and families at the Bogachiel Clinic.
